11:30 PM ET

- **Odds vary by player selection.**
- **Tickets cannot be cancelled.**

How to Play Cash POP

- Players ask a store associate for a Cash POP ticket. They can select their number(s) or can have them randomly selected. By selecting "COVER ALL" they will play all 15 numbers for a guaranteed prize.
- Each number chosen will have a separate prize value printed on the ticket. All prizes are at least 5X the player's wager.
- Players select an amount to play per number: \$1, \$2, \$5 or \$10. The wager amount determines the different prizes available to win.
- Players select which draw(s) they want to play. A separate ticket is printed for each draw.
- **Cost per Play = Numbers x Wager x Draws**
Example: 2 numbers x \$2 per number x 2 draws = \$8
- The Hoosier Lottery will randomly draw 1 number from 1 to 15 during each Cash POP drawing.
- After the drawing, players will match their number(s) to the winning Cash POP number to see if they have won the prize on their ticket.
