

KEEP *Play* POSITIVE

UNDERSTANDING THE ODDS 101

DRAW GAMES

- **Overall Odds Don't Change:** The number of tickets sold does not affect your chances of winning
- **Every Drawing is Random:** Past results don't influence future outcomes
- **No Strategy Improves Your Overall Odds:** Picking the same numbers repeatedly or choosing a "lucky store" doesn't increase your chances
- **Hoosier Lotto Example:** There are **9,366,819** possible number combinations, making the overall odds of winning the jackpot 1 in 9,366,819

- **Pre-Defined Overall Odds:** The overall odds are determined when the game is printed and do not change over time
- **Every Ticket Has the Same Chance of Winning:** Playing multiple times won't increase the chance of winning
- **More Players ≠ Better Chances:** More tickets sold will not change your overall odds
- **Tickets Are Randomly Distributed:** No store is luckier than another
- **Scratching Method Doesn't Matter:** The outcome is already determined when you purchase the ticket

CHAMPIONS OF PLAY™

Must be 18 or older to play. Please play responsibly.
Problem Gambling Helpline: 1-800-994-8448

KEEP *Play* POSITIVE CHECKLIST

- ✓ Set a budget and stick to it
